

December 2018

[Cartoon by the brilliant Nick Anderson](#)

When you've voted and shown your support for your colleagues and pupils you could encourage your fellow teachers to do the same.

Perhaps offer to help them tackle the on-line voting once you've seen how easy it is.

HANDS UP

WORKLOAD: Teacher workload is at unprecedented levels. Teachers are working on average 54.4 hours a week. We are losing far too many good teachers to stress and illness. Enough is enough **VOTE**

PAY: The Government has sought to undermine the national pay system by ending fixed pay scales, imposing PRP on all teachers and giving schools ever-increasing powers over pay. Enough is enough **VOTE**

FUNDING: The Government has cut £2.8bn from England's schools. The Government is in perpetual denial while the poorest children suffer the most. Enough is enough **VOTE**

SEND FUNDING: According to the DfE's own figures, more than 2,000 children in England with special educational needs and disabilities (SEND) have no education provision at all. Enough is enough **VOTE**
